- Frontend Development: HTML, CSS, Javascript, Typescript, React.js, Next.js.
- Backend Development: Node.js, Express.
- Databases: MongoDB, Mongoose.
- Responsive Web Design.
- Cross-Browser Compatibility.
- Version Control: Git, GitHub.
- User Interface (UI) Design.
- Problem Solving and Troubleshooting.
- Strong Communication Skills.
- Tools: Visual Studio Code, Chrome Developer Tools, npm.

WORK EXPERIENCE

Frontend Developer
Broadshift Technologies Limited, Lagos, Nigeria
October 2022 - Present

- Collaborated with senior developers to design and develop a responsive admin dashboard using modern frontend technologies, including HTML5, CSS3, Typescript, and Javascript.
- Mentored and guided interns, fostering their technical and professional growth.
- Assisted interns with hands-on coding, code reviews, and best practices to improve their skills.
- Conducted regular feedback sessions to evaluate intern' progress and address their concerns.
- Assisted in implementing frontend components and user interfaces using React.js ensuring seamless user experiences across various devices.
- Participated in code reviews, providing constructive feedback to improve code quality and maintainability.
- Conducted thorough testing and debugging to identify and resolve front-end issues.
- Provided technical support to clients and end-users, resolving issues related to the company's web applications and endpoint integration.
- Effectively communicate technical concepts to non-technical users, ensuring clear understanding.

● Collaborated with the development team to identify and escalate complex technical issues.

PROJECTS
1. Multi-Listing Hotel Booking Application
    ● Developed a responsive multi-listing hotel booking website using React.js, Redux, Node.js, and Express.
    ● Implemented user authentication and authorization using JSON Web Tokens (JWT).
    ● Integrated a MongoDB database for hotel management and user data storage.
    ● Implemented user authentication, search functionality, booking management features, currency conversion, secure checkout, and role-based access control (RBAC) system.
    ● Developed and integrated RESTful APIs for seamless data exchange between the frontend and backend.
    ● Implemented features like generating unique booking numbers for each hotel booked.
    ● Implemented features like user reviews, ratings, and real-time availability updates.

2. Admin Dashboard for Multi-Listing Hotel Booking Application
    ● Built an admin dashboard using React.js, Node.js, and Express for a multi-listing hotel booking application.
    ● Designed and implemented an intuitive user interface for managing hotels, bookings, and user accounts.
    ● Created RESTful APIs using Node.js and Express to handle data management and authentication.
    ● Utilized MongoDB for data storage and retrieval, optimizing data querying and performance.
    ● Implemented features such as hotel and booking management, user role-based access control, and analytics.

PROFESSIONAL DEVELOPMENT AND CERTIFICATIONS
    ● Responsive Web Design - **FreeCodeCamp**
    ● JavaScript Algorithms and Data Structures - **FreeCodeCamp**

SKILLS & HOBBIES
Technical skills: Vast knowledge in HTML, CSS, SASS, JavaScript, Typescript, jQuery, Firebase, Bootstrap, Tailwindcss, Reactjs, Nextjs, Redux, Nodejs, Express, MongoDB, and Mongoose.
Organizational Skills: Creative thinking, Problem-Solving, Excellent Communication, Team Management, Time Management, Research Orientation.
